- **Tools** : Vs Code, Notepad, CodeSandbox.
- **Operating System** : Linux.

---

## Professional Experience

- **Traegen Systems Private Limited** 06/2022 - 07/2024  
Frontend Developer
  - Developed and maintained responsive web applications using HTML, CSS and JavaScript.
  - Implemented React.js components to enhance the user interface, improving the loading speed.
  - Worked closely with backend developers to integrate RESTful APIs and ensure seamless data flow.
  - Used Git for version control and collaborated with team members through pull requests and code reviews.
- **Info Campus Pvt Ltd** 01/2022 - 06/2022  
Frontend Developer Intern
  - Assisted in developing responsive web pages using HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
  - Participated in daily stand-ups and sprint planning sessions, contributing to project roadmaps and timelines.
  - Gained hands-on experience with React.js by developing components for a client-facing dashboard.
  - Collaborated with senior developers to debug and resolve issues, improving the stability of the application.

---

## Projects

- **MYCARDS**

- MyCards is a mobile based service platform of HDFC Bank for products like Credit Card, Debit card, Debit card EMI loan and Consumer Durable loan.
- It is a Progressive Web Application (i.e. PWA) which runs on the browser but provides native app like experience, once the customer saves it on their phone.

**Technology Stack :** HTML, CSS, JavaScript, Bootstrap, React Js, Redux.

**Responsibilities :**

- Developed and maintained the frontend of the MYCARDS project, ensuring a responsive and visually appealing user interface.
- Integrated frontend components with backend APIs, ensuring smooth data exchange and dynamic content rendering.
- Participated in code reviews and contributed to improving coding standards and best practices.
- Troubleshooted and resolved bugs and issues reported by users or identified during testing.

- **Multi vendor E - Commerce Website Application**

- Developed the frontend for a multi-vendor e-commerce platform with features like product catalog management, vendor dashboards, and user interfaces for seamless browsing and purchasing.

**Technology Stack :** HTML, CSS, Bootstrap, React Js

**Responsibilities :**

- Develop responsive and user-friendly interfaces.
- Integrate frontend with backend APIs to display dynamic data.
- Collaborate with designers and backend developers to implement and refine features
